Background

We need your help to get the COVID vaccine out to our Kitsap county community members. Clinics, pharmacies, and hospitals interested in administering COVID-19 vaccine must enroll in the federal COVID-19 Vaccination Program. The Washington State Department of Health (DOH) is coordinating enrollment for providers in Washington State. Many vaccine providers will be needed in this effort. If your facility has not already enrolled, please get started by completing the actions listed above. Even if your patient population is not listed as an initial vaccine priority group, if you are able to vaccinate your employees, we encourage you to enroll as a COVID-19 vaccine provider as soon as possible.
